

ISU stocks, fabricates and supplies reverse engineered replacement parts for the **Folder Gluer / Paper Converting Industry**. This includes field service experts who specialize in feeder belting compounds and applications for **Bobst™** (Domino, Post, Omega, etc.), **Roberts™**, **Vega™**, and several other original equipment manufacturers (OEMs).

FEEDER BELTS CAPABILITIES:

- Seamless options for feed precision and durability
- Specialty compounds to match your paper products
- High-grip cover options
- Superior abrasion resistance
- Excellent resistance to ink and chemicals
- Stocking arrangements available for same day shipping

245 W. Roosevelt Road, Unit 88
West Chicago, Illinois 60185
